

## North Carolina vehicle inspection

Vehicle inspections are only required for vehicles with an out-of-state registration. You don't need an inspection if your vehicle has North Carolina plates. Passed inspection forms from other ride share companies are also accepted.

For vehicles with out-of-state registration, please see the steps below::

1. [Find an inspection station near you here.](#)
2. Upload a photo of the completed form in your Lyft Driver app. To add documents in the app, tap 'Account' in the main menu, then 'Documents.'
